TERRIBLE TRAGEDY

The Body of Richard Hurst Mutilated Beyond Recognition.

A Pioneer of the County Found Dead in His Bed—A Scene of Indescribable Horror.

One of the most horrible suicides ever committed in the history of the city occurred Wednesday evening in the southwestern portion of town.

An old gentleman named Richard Hurst blew his head off with a shotgun. When the coroner arrived at the scene of the tragedy he found the body of the deceased reclining on a bed in the neat little parlor of the house in which he had resided for some time past.

The body was lying on a bed, and the wire, which had been attached to the trigger of the gun, was still curled around the foot of the suicide.

Investigation showed that the deceased had previously cut his throat and hacked his wrists. A pool of blood was found in the kitchen.

In the bedroom a scene of indescribable horror was presented. The ceiling was covered with gore, and pieces of the skull were found strewn around the room.

One eye was found in a corner of the apartment, and nose and mustache were lying on a chair.

The deceased evidently fired the first shot at about 6 oclock. The charge missed him. He then cut his throat and wrists. Death not being immediate he went into his bedroom and attached the wire to the trigger.

This occurr[illegible] an hour after the first shot was fired.

Mrs. David Glines, who was visiting Mrs. Sturgeon, who lived next door to the house in which the suicide resided, was the first person to suspect that a tragedy had occurred, and when she entered the house of the recluse her fears were realized.

Coroner Taylor took charge of the remains and held an inquest. No written communication was left to indicate why the deed had been committed.

The deceased was a mechanical engineer, and was evidently an old resident of the county, although he was comparatively unknown. A letter found in his trunk showed that he had been offered a position as engineer by the Caspar Lumber company.

He left, inclosed in a brief note, his rent for the month, and $150 in gold was found in his trunk.

THE SUPERIOR COURT.

W. E. Gillespie vs F. B. Gilger et al: Motion of the plaintiff for a continuance of the trial of this case was argued by the respective counsel, and the motion denied, and the attorney for the plaintiff moves for a dismissal and the attorneys for the defendants consenting the action was dismissed.

Ben Branscomb, the old Republican warhorse of Jackson valley, was in town during the week. He is the same old genial Ben, and everybody loves him.

The Best Medicine for Mothers

Dr. Pierce's Favorite Prescription

"Words cannot express how grateful I am for your kind advice and your 'Favorite Prescription,'" writes Mrs. D. B. Barricks, of Perrows, Campbell Co., Va. "I feel that it has cured me. I had been in poor health for four years. Suffered greatly with my right side, also with bearing down pains, and my nerves were in a dreadful state. After using four bottles of your 'Favorite Prescription' I am now well. I am the mother of two children. With the first child I suffered twenty-eight hours, and with the second I used your medicine and was sick only three hours. I believe Dr. Pierce's Favorite Prescription to be the best medicine in the world for suffering females. I wish you great success, and hope that God will bless you in your noble work."

Dr. Pierce's Common Sense Medical Adviser in paper covers is sent free on receipt of 21 one-cent stamps to pay expense of mailing *only*. Address Dr. R. V. Pierce, Buffalo, N. Y.

A SECRET LEDGE

HOBART ESTATE SUCCESSFUL IN REMARKABLE QUEST.

SLEUTHS LEARN LOCATION OF RICH STRIKE.

Spend Months Shadowing Prospector Who Uncovered Yellow Metal on Land Owned by Californians.—Mystery of Hidden Mine Revealed.

San Francisco, June 24.—A special to the Call from Carson, Nev., says: The mystery of a hidden mine has claimed the attention of the people of the western portion of the state ever since it became known three weeks ago that a corps of detectives from California had spent nearly a year in the vicinity searching for it.

The story is one almost without precedent. The mine, which from samples of ore taken from it rivals in wealth the properties that made millionaries of some of the argonauts, was discovered by Bud Barkley, an engineer on the Virginia and Truckee railroad. When Barkley realized from the assays the richness of his claim he searched the records to ascertain his title to the land and found it belonged to the Hobart estate and was secured by a United States patent.

Berkeley tried to keep his secret until he obtained possession of the ground. He visited San Francisco and tried to make a purchase, but found that the news of his discovery had reached the Hobart heirs in some mysterious manner and he was obliged to confess the facts, though concealing the location of the mine. Negotiations were then conducted, which would permit Barkley to work the property on a percentage proposition.

Soon after Barkley left San Francisco detectives were dispatched to Nevada. Among them was Thacker of Wells, Fargo & Co. fame. Some of them shadowed the engineer in the hope that he would lead them to the treasure. Two days ago word came that the Hobart sleuths had uncovered the ledge. Immediately Barkley mounted a horse and headed for the hills with a rifle over his shoulder and a belt of cartridges strapped around his waist. It is said that if he discovered the rumor to be true he will make a strong fight to hold a just share of the property he opened to the world.

All sorts of stories as to the richness of the ore are in the air, and some say the Hobarts have managed to get hold of some samples that Barkley sold and that the assays were in the thousands of dollars. Some of the rock shown in this city would do credit to any cabinet specimens and looks almost too good to be real.

Yukon Officials Accused of Fraud.

Dawson, Y.T., via Vancouver, June 24.—Charged with having received large sums of money from American companies for complicity in extensive frauds against the government, two officials quit their offices yesterday in Dawson. They were D. W. Davis, collector of customs for the port of Dawson, and A. A. Cook, chief clerk in Davis' department. The friends of the two officials could hardly believe the news of the suspension. Davis and Cook have been in the northern service between four and five years.

Medal Given Captain of Roddam.

London, June 24.—The Lloyds' medal for meritorious service was presented to Captain Freeman of the British steamer Roddam by the committee of Lloyds as a recognition of his gallantry in taking his vessel from St. Pierre, Martinique, on May 8, during the destruction of that town by the eruption of Mont Pelee.

MORE FIGHTING IN MINDANAO.

Moros Attacked Five American Soldiers, Injuring Two.

Manila, June 24.—Five soldiers of the Twenty-seventh infantry, forming an advance guard which was escorting a wagon train half a mile from Camp Vickars, Island of Mindanao, were attacked yesterday by ten bolomen. One soldiers had an arm badly cut and another was seriously wounded in the head. The Moros captured a rifle and escaped uninjured. The Badinglam Moros say the attackers were Moros from Bonolod, who went on the warpath in the morning for the avowed purpose of killink Americans.

Colonel Frank D. Baldwin, from the island of Mindanao, reports that the Moros have held a big conference at Bacolod. The Sultan urged a policy of friendship with the Americans, but two of the Dattos said they would die first. Others declared that if the two Dattos caused war they would not assist them.

Three towns in the western part of the island are inclined to be unfriendly. Colonel Baldwin hopes to win them over to peace.

NO CUBAN TREATY THIS YEAR.

President Cannot Carry Into Effect the Alternative.

Washington, June 24.—It has been determined that no reciprocity treaty with Cuba can be submitted at the present session of congress. It was at first planned that, in the event of the failure of the administration managers in the senate to secure a favorable action on the Cuban sugar bill, a treaty would be drafted at once. This was on the understanding that Senor Quesada, the Cuban minister here, had full powers and that a treaty could be drawn in Washington entirely. It is stated now, however, that this cannot be done and that any draft of a treaty must go to Havana and be returned before it can be submitted to the senate. This, of course, cannot be accomplished in the short space of time intervening before adjournment if the estimates of the leaders that congress will adjourn by July 4 are correct.

No confidence is felt in administration circles as to the ability of the senate managers to secure the ratification of a treaty, even if drawn, and while the president may feel called upon to put the matter to a test, it will be rather with the idea of demonstrating his own ideas.

.. The Danish Treaty Scandal. ..

Washington, June 24.—The special committee of the house of representatives is investigating charges in connection with the purchase of the Danish West Indies. Chairman Dalzell laid before the members a number of papers, including letters from the United States Minister to Denmark, Mr. Swenson; Henry White, secretary of the United States embassy at London, and Captain Walter Christmas, who has been the central figure in connection with the charges.

H. H. Rogers of the Standard Oil company sent a letter in which he says he had but one interview with Christmas and that was devoid of importance. He adds: "The story he tells as to my claim, the ownership of twenty-six United States senators, is simply a falsehood and so absurd on its face that it is hardly worth referring to." Mr. Rogers offered to come as a witness if the committee wanted him.

Veteran Railroad Man Passes Away.

Los Angeles, June 24.—Andrew Smith, superintendent of the Santa Fe Pacific divisions of the Santa Fe system, with headquarters in this city, died at his home here yesterday from a complication of ailments. He was about 64 years of age and was a veteran railroad man, having begun service as a railway mail clerk in 1862.

Crushed by Cars.

Los Angeles, June 24.—Albert S. Ford, a Los Angeles railway conductor, who was crushed between a car and the trailer while making a coupling on Friday evening, died yesterday morning from the injuries sustained at the time. Ford had been married only two weeks when the accident occurred.

Survivors of Fannie Kerr Arrive.

San Francisco, June 24.—The steamer Sonoma arrived this morning from Australia by way of Pago Pago and Honolulu. From the latter port she brought sixteen men of the lost British ship Fannie Kerr, among them being Third Mate Gibbons, son of the captain.

The search for the hull of the Fannie Kerr has been abandoned so far as the shipping men of Honolulu are concerned. The American Maru, bound for Yokohama from the islands, has been instructed to keep a lookout for the derelict. The general opinion is that the vessel has gone to the bottom. The British consul at Honolulu is conducting an inquiry into the loss of the vessel. First Mate Longwill, who was accused of deserting the gig, has been exonorated by the men.

Suicide at Redwood City.

Redwood City, June 24.—An unknown man was found today suspended from a gum tree near Burlingame. He was well dressed and apparently had seen the bright side of life. He was five feet nine inches in height and had a gray beard and hair. He was about 40 years old and apparently an American. Nothing was found on the body that would throw any light on his identity. A book was found, but the leaves had been torn out and the name in the back scratched out, evidently to prevent identification. The body was brought to the Morgue and will remain there a few days to await identification.

to water but you can't make him drink.

You can't make him eat either. You can stuff food into a thin man's stomach but that doesn't make him use it.

Scott's Emulsion can make him use it. How? By making him hungry, of course. Scott's Emulsion makes a thin body hungry all over. Thought a thin body was naturally hungry didn't you? Well it isn't. A thin body is asleep—not working—gone on a strike. It doesn't try to use it's food.

Scott's Emulsion wakes it up—puts it to work again making new flesh. That's the way to get fat.

REPUBLICANS ARE TO MEET

The Official Call for the Convention Issued

An Apportionment of Delegates Made and the Date Definitely Fixed—List of Officers for Primaries.

The Republican county central committee of the county of Mendocino, State of California, the governing body of the Republican party of Mendocino county, a political organization, which at the last general election polled more than 3 per cent of the total vote in said county, in meeting duly assembled on this 9th day of June, 1902, at Ukiah City, in said county, hereby adopts the following call for a Republican county convention to nominate candidates for the following public offices, towit:

Assemblyman for the sixth district; judge of the superior court; tax collector; sheriff; county clerk; auditor; recorder; treasurer; assessor; district attorney; county superintendent of schools; surveyor; coroner and public administrator; supervisors for the third and fifth supervisor districts; township justices of the peace and constables to be voted for at the general election to be held on the 4th day of November, 1902, or at any special election which may be called within two years after the 9th day of August, 1902; for the election of eleven delegates to the Republican state convention to be held at Sacramento, on the 25th day of August, 1902, and to the district conventions of the railroad, board of equalization, congressional and senatorial districts of which this county is a part; for the election of a county central committee and for the transaction of such other business as may come before the said county convention.

That said county convention shall meet at Ukiah City on Saturday, the 9th of August, 1902, at 10 oclock a. m., and shall consist of 117 delegates.

That said delegates shall be elected at a primary election to be held in said county on Saturday, the 26th day of July, 1902, and in accordance with the provisions of the laws of this state governing such elections.

That the apportionment of delegates to said county convention shall be one delegate in each precinct for every twenty votes cast therein for the Republican nominees for presidential elector at the general election held in November, 1900, and one delegate for a remainder of 10 votes or more, provided that any precinct casting less than such remainder vote for said nominees shall nevertheless be entitled to one delegate.

That the test to be required of every person seeking to vote a Republican ballot at said primary election shall be as follows: A bona fide present intention of supporting the nominees of the Republican party at the next ensuing election.

That at said primary election the polls shall be kept open between the hour of 1 oclock p. m. and sundown.

Immediately after the polls are closed and the votes counted, the inspector and clerk will seal up the ballots and make out, sign and transmit to the undersigned secretary at Ukiah, a certificate showing the names of the persons voted for, the number of votes received by each, and the persons elected as delegates.

By order of the Republican Central committee of said Mendocino county.

A. J. THATCHER, Chairman.

Attest: J. H. BARKER, Secretary.

A Beautiful Resort.

The Point Arena Hot springs, situated on the Garcia river, fifteen miles from Point Arena, and owned by Dr. W. A. McCornack of Fort Bragg, is by far the finest resort of northern California. The people of this county are missing a rare treat by knowing so little of there springs.

The Garcia has always been the most popular trout stream of the county and its secenery deserves equal praise. Nothing in nature could possibly surpass the beauties of the drive from Point Arena to the springs.

The Redwoods along the river are still untouched and the shade is cool and delightful. Beautiful azaleas, some pink and some purest white, mingle their fragrance with the breath of the pine trees, while ferns of every description fringe the banks of the river. Back and forth across the water winds the road; sometimes the ford is rough, sometimes smooth, sometimes shallow, but always beautiful.

The springs are situated on the right bank of the river and just at the water's edge, and we heard much and witnessed evidence of the wonderful medicinal qualities of the water, which registers 123 degrees. The accommodations are firstclass. The cabins and tents are furnished with neat, new furniture, and the table is supplied daily from Point Arena markets.

About sixty guests were at the springs last week, and as many more had engaged board for this week. Dr. McCornack and wife and daughter, Miss Edith, give personal attention to their guests, and make one feel at home from the moment that he registers his name.

The large reception room is fitted up with billiard and pool tables, a piano and other musical instruments. The floor is excellent for dancing and the big fire-place has its evening circle of jolly story-tellers. We want to go back to the Point Arena Hot springs and would advise you to go too. * * *

FRIDAY'S MASQUERADE.

A Jolly Time at the Beginners' Club Dance Last Week.

The Beginners' club gave its first mask ball Friday evening last. It was a decided success, and the participants furnished much amusement to those who attended.

Ethel Blake and Eva Craven—Pickaninnies.

Alice Edwards—Flower girl.

Nora Ellis—Night.

Opal Dinwiddie—Orrs Hot springs.

Perle Dinwiddie and Leah Wilson—School girls.

S. Edwards and A. Gibson—Little girls.

Policeman—Jesse Dinwiddie.

Tramp—Morris Garcia.

Archie Tindall, Gerten Saunders, Dow Chilson—Clowns.

Carl Stapp—Happy Hooligan.

A. Layton—Poundmaster Hatch.

L. M. McGarvey—Professor.

H. Hurd—Court jester.

Charley Hatton—Indian squaw.

The following were attired in evening dress: Misses Bessie McGarvey, Lutie Buckel, Lily Curtis, Jennie Nutter, Alma Southard, Alice Broback, Ione Pennington, Hattie Smith, Messrs Roy Ford, Elmer Gibson, Jesse Porterfield, Will Hagans, E. A Carnival of Light.

The street illuminations of San Francisco during the national gathering of Pythians are to be on such a magnificent scale as to eclipse those of any city in the world. The estimated cost will reach $30,000 or more and all will be under the supervision of the city department of electricity. The plan includes many novel designs and features, and will be a distinct departure from former efforts. Instead of merely stretching strings of light across the streets, it is intended to group the lighting in seventeen courts of honor, at certain intervals along the principal thoroughfares. Each court will contain 2720 incandescent lamps in addition to the street illumination on Market street, which alone will carry 3840 lights. The insignia of the order, made of vari-colored globes, will be a feature in each of the courts. The grand court of honor, which will be located at the intersection of Market, Geary, Kearny and Third streets, is to contain several thousands of lights, one a large emblem reaching from the grand court to the tall buildings near by. Altogether, this westward pilgrimage of the Knights, August 11th to 20th next, promises to be an event in history. Inquiries indicate that over 100,000 people will then take advantage of the low rates offered by the overland railroads.

NOME EDITOR BOOMS CAMP.

Tells of Creeks That Will Produce Vast Sums.

Seattle, June 24.—J. P. Parkinson, editor of the Nome News, who spent the past winter in Nome and is here on a flying trip, said yesterday:

"The past winter at Nome was a long one, but not particularly severe. There was only one storm of unusual severity between January 1 and 10. That blizzard enveloped the entire peninsula. Many mushers were caught out and were badly frozen. Business during the winter was quiet. There was little money in circulation. The dust is generally shipped out in the fall and there is little left. Strange to say, however, thirty-five saloons took out government licenses, costing $1500 each and generally lost money during the winter. None of them, I think, made any money. The faro banks lost fully $50,000 during the closed season and that practically was all that kept the camp. In the mercantile business there was so much competition that staple and canned goods were almost as cheap as in Seattle or San Francisco.

"Socially Nome was extremely gay. As soon as navigation closed all business cares were thrown to the winds and then followed a series of entertainments that were both novel and pleasing. All of the societies gave balls an hops and with amateur theatricals, parties, etc., they enjoyed themselves immensely.

"A number of mining suits were tried during the winter and the court worked hard. In every case original locators were given the full benefit of the law, something unknown during the previous regime.

"The mining conditions are excellent. There is more work going on than ever before. Numerous dumps were being taken out or had been taken out when I left. The returns are usually pleasing and exceed even the expectations of the owners. They were getting ready for extensive work this summer, and the output will be much larger than last year.

CONFESSES TO GIVING POISON.

Nurse Acknowledges Killing Seven of Her Patients.

Barnstable, Mass., June 24.—Miss Jane Toppan, a nurse, was found "not guilty by reason of insanity" of the murder by poisoning of Mrs. Mary D. Gibbons of Cataumet on August 12 of last year, before a special sitting of the superior court here yesterday. The time occupied in the trial was scarcely six hours. Miss Toppan was ordered committed to an insane asylum for life.

Of the history of the Toppan case there is much that the public will never know. It would be impossible to tell the complete story of the woman because it would be laughed down as improbable and utterly without foundation. This murderess had a passion for setting fires, as well as a greed for sacrificing human lives. One instance showing her combined manias may be cited. She was employed as a nurse in the family of a well-known lawyer of this state, but had no opportunity to kill off her patients. When the house was comparatively deserted one night she deliberately set fire to one of the rooms, hoping that the spread of the flames might accomplish what she did not dare otherwise attempt—the destruction of a helpless and powerless woman—without suspicion falling upon her. Fortunately the fire was seen in time to save the patient.

REMAINS AT HIS KEY.

Sees His Property Burned as He is Taking Dispatches.

Vacaville, June 24.—A $5000 fire in Elmira last night burned the boardinghouse of S. Cripps, the residence of Jury Borgers and several barns and sheds. A strong wind fanned the flames, and for two hours the entire population fought for its homes. The night operator at the railway station remained at his desk and saw the flames destroy every bit of property he owned while he received train dispatches. Had he left his key a wreck might have resulted from the non-receipt of orders.

Want Bryan for Governor.

Grand Island, Neb., June 24.—Delegates to the Democratic and Populist state conventions, to be held here today, began to arrive yesterday. William J. Bryan, Senator Allen, former Attorney General Smythe and others prominent in the council of the fusion forces, are expected this afternoon. Nobody who is here cares to predict the result of the conventions, but all agree that it will be clear sailing if Mr. Bryan accepts the nomination for governor. If he continues to refuse the nomination there are nearly a dozen avowed candidates ready to enter the struggle and some think that such a refusal will result in a failure of the fusion forces to get together on a ticket.

HE FEARED HE HAD LOST

When Wu Ting Fang, the famous Chinese Minister to Washington, irritable and somewhat forgetful from a severe cold, missed one day from the front of his cap the immense diamond he always wears there, he was dreadfully frightened. A friend pointed out that the statesman had inadvertently donned his turban wrong side before, and that the diamond was safe in the rear. Had Wu Ting Fang been wearing a Benson's Porous Plaster on his chest or back to cure his cold, he never would have doubted its location. He would have felt it doing its work,—warming and making flexible the torpid muscles, extracting the pain and soreness, promoting the free circulation of the blood, stimulating the skin and lungs to proper action, and so *dissolving* and banishing the malady. Thus we perceive, beloved friends, that

THE BIG DIAMOND ON HIS HAT

While a pretty thing to look upon, was of no practical use. But Benson's Plasters are supremely useful. They relieve and cure gout, rheumatism, neuralgia, colds on the chest, lame back, etc., so quickly and completely as to make you wonder how it can be. Better *now*,—well *to-morrow*, that's the way they work. Get the genuine. All druggists, or we will prepay postage on any number ordered in the United States on receipt of 35c. each.

Trolley Car on Fire.

New York, June 24.—While running at a high rate of speed a Myrtle avenue trolley car in Brooklyn took fire, burning the motorman and five passengers, one probably fatally. Other passengers were badly injured, jumping to escape the flames, which swept the full length of the car, being carried by the wind.

Emperor William as a Target.

Paris, June 24.—The Rappel publishes a Berlin story to the effect that a shot was fired at Emperor William of Germany while on the train to Dusseldorf. The bullet pierced one of the coaches, but did no further damage. The police have no clew.

Remarkable Endurance of Aged Man.

Pendleton, Or., June 23.—Throughout eighteen days and nights of torture, with his head crushed by a fall, Joseph Reyburn crawled about helpless in the wild stock country southwest of here. Reyburn is 70 years old, yet so wonderful is his endurance that he will recover. His is one of the most remarkable cases of hardihood ever recorded.

Reyburn started to James Baxter's ranch, fifteen miles from Shaniko, on horseback. When half way there his saddle cinch broke, throwing him. His head struck a rock. For forty-eight hours he lay unconscious; then, impelled by thirst, he slowly dragged himself to Brush canyon, a half-mile distant, for water.

For sixteen days the unfortunate attleman crawled, digging up roots and herbs with his hands. These were his only food. Eighteen days after his injury a Crook county cattleman found him one mile from Brush canyon, a mere bundle of skin and bones. Exposure to the chilly Oregon nights and lack of nourishment had nearly killed him.

Largest Gun in the World.

New York, June 24.—A sixteen-inch gun, the largest in the world, will be completed at Watervleit arsenal by Wednesday and sent to the United States proving grounds at Sandy Hook. Its operations are expected to astonish the world. It is the most powerful weapon yet devised by man and is expected to revolutionize the art of gunmaking. The work upon this gun has been going on for years. Monster cranes have been constructed in order that the various parts of the record-breaking gun may be conveniently shifted.

Short of Coal for Cruiser.

New York, June 24.—The cruiser Brooklyn, which has been selected by the navy department to take the remains of Lord Pauncefote to England, is coaling at the Brooklyn navy yard. There is no coal stored at the yard, owing to the lack of room, and the strike has considerably inconvenienced the warships. The Brooklyn will have only enough coal to take her to England, and it will be necessary to obtain enough at Southampton to bring her back.

Kilauea is Rumbling.

Honolulu, T. H., June 17.—Reports from the volcano Kilauea continue to tell of unusual manifestations of activity, but there has been no considerable outbreak. Many people have gone from Honolulu to see the volcano, and the Volcano hotel has been full ever since the outbreak was reported to be developing. Latest reports indicate that the display of force is increasing.

Santa Fe Gets Franchise at Berkeley.

Berkeley, June 24.—After much debating last night the town trustees passed to print the Santa Fe franchise. The clause over which the dispute arose was finally compromised.

Utah Editors Take a Sea Trip.

San Francisco, uJne 24.—The visit members of the Utah Press Association were the guests of the Press club of this city on an enjoyable excursion on the bay yesterday. The tug Relief had been placed at the disposal of the party by John D. Spreckels, and when it left the wharf about 2 o'clock about fifty of the visiting scribes, including their ladies, were aboard.

Going Back Home to Africa.

The Hague, June 24.—C. H. Wessels and P. G. W. Groebler, who have been on the continent for some time past in the interest of the Boers, have started for England with a view, it is said, of taking the steps necessary to permit of their return to South Africa.

Built From One Tree.

In 1853 the first Baptist service held at Santa Clara, Cal., was conducted under an oak tree. When the Baptist society decided to build a church, the site on which the tree stood was selected. This monster of the forest, which cast an acre of shade, was then cut down at a height of twenty-five feet, and the trunk was cut into lumber. The big stump was partially hollowed and allowed to stand as the church tower. A high steeple was erected on it, and the church was built from the lumber made from the giant oak. When the church was completed, 1,200 feet of lumber remained unused. The building is 30 feet wide by 70 feet deep.

Immorality in the United States.

A pamphlet by Felix Baumann is having a large sale, says a Berlin dispatch. It is entitled "In Darkest United States," and contains extravagant descriptions of the immorality alleged to exist in American cities. There are long chapters on New York, Chicago, New Orleans and San Francisco. The writer has raked together accounts of cruel lynchings, police briberies and the sale of justice in cities. He contends that the United States is more deeply immoral than any other country in the world, and warns Germans, especially women, against emigrating to such an evil atmosphere. The black cover of the pamphlet is conspicuous on every news stand. The American flag is emblazoned on it.

Thousands Have Kidney Trouble and Don't Know it.

How To Find Out.

Fill a bottle or common glass with your water and let it stand twenty-four hours; a sediment or settling indicates an unhealthy condition of the kidneys; if it stains your linen it is evidence of kidney trouble; too frequent desire to pass it or pain in the back is also convincing proof that the kidneys and bladder are out of order.

What to Do.

There is comfort in the knowledge so often expressed, that Dr. Kilmer's Swamp-Root, the great kidney remedy fulfills every wish in curing rheumatism, pain in the back, kidneys, liver, bladder and every part of the urinary passage. It corrects inability to hold water and scalding pain in passing it, or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to go often during the day, and to get up many times during the night. The mild and the extraordinary effect of **Swamp-Root** is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. Sold by druggists in 50c. and $1. sizes.

You may have a sample bottle of this wonderful discovery and a book that tells more about it, both sent absolutely free by mail, address Dr. Kilmer & Co., Binghamton, N. Y. When writing mention reading this generous offer in this paper.

FOR SALE — 300 thoroughbred Spanish Merino bucks. These bucks are all large and healthy, and have close, long, fine wool. They are one, two and three years old—were reared on a mountain range, without barn shelter, and consequently are better fitted to undergo hardship than other bucks that have been pampered and stallfed.
